This certificate is not evidence of current listing. To verify listing status, visit the IAPMO R&T Product Listing Directory at pld.iapmo.org

Identification:

Product shall bear: The certified company name. The model number or trade designation. The appropriate certification mark. Product markings may be permanently fixed on the system or may be included as part of product literature or packaging.

Characteristics:

Point-of-use and point-of-entry systems intended to reduce substances affecting the aesthetic quality of the water or to add chemicals for scale control, or both. Certification demonstrates that all materials safety and structural integrity (as applicable) requirements have been met. To be installed in accordance with the manufacturer's installation instructions and the requirements of the latest edition of the Uniform Plumbing Code®. Point-of-Entry products certified to this standard also comply with the health effects materials safety requirements listed in NSF/ANSI 61.

Products listed on this certificate have been tested by an IAPMO R&T recognized laboratory. This recognition has been granted based upon the laboratory's compliance to the applicable requirements of ISO/IEC 17025.

Identification:

Each product shall be permanently and legibly marked with the manufacturer's name or trademark. The product may also be marked with the standard designation "NSF/ANSI/CAN 61".

Characteristics:

Materials or products that come into contact with drinking water and/or drinking water treatment chemicals. Products and materials may include process media, protective materials, joining and sealing materials, pipes and related products, mechanical devices used with treatment/transmission/distribution systems, and mechanical plumbing devices. To be installed in accordance with the manufacturer's instruction. Lead free requirements are addressed under a separate certificate of listing.

Products listed on this certificate have been tested by an IAPMO R&T recognized laboratory. This recognition has been granted based upon the laboratory's compliance to the applicable requirements of ISO/IEC 17025.

CERTIFICATE OF LISTING

IAPMO Research and Testing, Inc. is a product certification body in which its product certification system includes inspection and testing of samples taken from the supplier's stock or from the market or a combination of both to verify compliance to the requirements of applicable codes and standards. This activity is coupled with periodic surveillance of the supplier's factory and/or warehouses as well as the assessment of the supplier's Quality Assurance System. This listing is subject to the conditions set forth in the characteristics below and is not to be construed as any recommendation, assurance or guarantee by IAPMO Research and Testing, Inc. of the product acceptance by Authorities Having Jurisdiction.

Issued to:

ATLAS FILTRI SRL

VIA PIERROBON 32

This certificate is not evidence of current listing. To verify listing status, visit the IAPMO R&T Product Listing Directory at pld.iapmo.org

Identification:

Product may be unmarked. If a certification mark is used, it shall include: - The certified company name. - The model number or trade designation. - The appropriate certification mark. The product may also bear either "Lead Free" or "Low Lead" above or in close proximity to the certification mark. Product markings may be permanently fixed on the system or may be included as part of product literature or packaging.

Characteristics:

Products may include any pipe, pipe fitting, solder, flux, or other plumbing products providing water for human consumption. Products listed below are to be installed in accordance with the manufacturer's instruction. These products have been verified with weighted average lead content $\leq 0.25\%$; Solder and flux lead content $\leq 0.2\%$.

Products listed on this certificate have been tested by an IAPMO R&T recognized laboratory. This recognition has been granted based upon the laboratory's compliance to the applicable requirements of ISO/IEC 17025.

Identification:

The product shall be permanently marked with the manufacturer's name or trademark. The product shall also bear the model designation, claims verified and substantiated by test data and the cUPC certification mark. Drinking water treatment systems or components shall be marked with (a) the manufacturer's recognized name, trademark, or other mark; or (b) in the case of private labelling, the name, trademark, or other mark of the customer for whom the fitting was manufactured. Markings shall be made by a permanent mark or a permanent label and shall be visible after installation. When it is impractical to affix the information specified in Items (a) and (b) directly to the product, the information shall be included in the literature accompanying the product.

Characteristics:

The point-of-use and point-of-entry systems addressed by this Standard are designed to be used for the reduction of specific substances that may be present in drinking water (public or private) which are considered health hazards. Certification demonstrates that all materials safety and structural integrity (as applicable) requirements have been met. To be used in accordance with the manufacturer's instructions. Mark can only be used if product is already certified with IAPMO R&T to a standard cited in the current revision of the Uniform Plumbing Code.

Products listed on this certificate have been tested by an IAPMO R&T recognized laboratory. This recognition has been granted based upon the laboratory's compliance to the applicable requirements of ISO/IEC 17025.
